Eaze

Senior Product Designer | May 2017 - Present

I've led many major projects, started and run UX research, created core design systems and processes, and helped build out the product team. Some projects I've led include the entire Eaze.com redesign, the driver app, both mobile apps, and the internal backend tools our staff and depots use to run the business.

Zenefits

Senior UX Designer | Jun 2015 - Feb 2017

I led design on the API platform, the benefits and time and attendance tools, and the style guide among other projects. I helped build the team out from 3 to 10 designers, as well as copywriting and QA. I mentored junior designers and led initiatives to better integrate the product department with engineering and marketing.

3D Hubs

Lead UX Designer / Front-End Engineer | Jan 2014 - Mar 2015

I created and staffed both the design and front-end engineering departments. I was the Lead UX Designer, as well as the first front-end engineer. I also mentored the junior designers on my team.

Sony

Interaction Designer | Jul 2012 - Jul 2013

I was responsible for unifying app experiences across a range of Sony gaming systems, mainly the Playstation 4 system UI for the worldwide launch. I also designed systems for the handheld Vita and interactive TVs.

Mindbody

UX Designer | Feb 2011 - Jul 2012

I helped establish and build the UX and User Research teams. I led the complete redesign of Mindbody's client facing web app, as well as the iPhone and Android apps, consumer shopping cart, and Facebook app.

Blue Nile

UX Designer | Feb 2010 - Feb 2011

I initiated user research at Blue Nile and led mobile design, search, and the shopping cart among others. I created a process for photographing all recently purchased engagement rings and displaying them live.

LEVEL Studios

Graphic & Motion Designer | Oct 2006 - Jun 2008

I led multiple major website launches for international product releases, designed the corporate rebranding for several international companies, and worked as a 3D motion designer on a number of commercials. Some clients I worked for include Apple, HP, Quiksilver, Compaq, Motorola, Cisco, Oakley, and Lenovo.
